Emmanuel Obodoechina

Dublin, Ireland (Open to relocate) | emmanuelobodoechina@outlook.com | +353899898973 | linkedin.com/in/obodoechina-emmanuel

Professional Summary

IT Support Engineer with 2+ years of hands-on experience in end-user support, network administration, and cybersecurity compliance. Skilled in SonicWall firewall management, Microsoft 365 and Intune administration, and vulnerability assessment using Nessus and SolarWinds SIEM. Holds CompTIA A+, Security+, Network+, CySA+, Server+, and CCNA certifications. Experienced supporting 400+ endpoints across Windows, macOS, and Linux environments.

Experience

IT Support Engineer 10/2023 – Present

Mr.Price Bargains *Dublin, Ireland*

- Enforced least privilege access for all users by assigning permissions and adding accounts to the correct security groups within Active Directory and Microsoft Entra ID, reducing unauthorized access risks and maintaining compliance with IT security policies.
- Delivered training sessions to 100+ end-users on Microsoft 365 tools (Teams, Outlook, Office, File Sharing) and Active Directory/Microsoft Entra ID, resulting in a 25% reduction in recurring support queries.
- Increased team productivity by 20% by providing six months of structured training to a National Learning Network intern in asset inventory management, network configuration, and endpoint management.
- Monitored and enforced cybersecurity protocols, including phishing simulation training, leading to a 15% increase in employee compliance with security measures.
- Provided first-line technical support for Windows and macOS devices, including software installations, updates, and hardware troubleshooting, achieving a 95% first-call resolution rate.
- Conducted daily system health checks and audits via Microsoft Intune, ensuring 100% uptime and security compliance across 400+ endpoints.
- Configured and managed Site-to-Site and Client-to-Site VPN solutions (NetExtender) using SonicWall firewalls, ensuring secure remote access and seamless communication between multiple office locations.
- Configured and managed Ubiquiti UniFi Access Points to ensure optimal wireless network performance; developed a Bash script to automate UniFi as a service for 24/7 continuous log collection and improved troubleshooting capabilities.

Customer Service Agent 10/2022 – 04/2023

FMI Ltd *Dublin, Ireland*

- Handled an average of 60 customer interactions per day via phone, addressing inquiries and complaints while maintaining a 95% customer satisfaction rating.
- Collaborated with cross-functional teams to address customer issues and improve processes, resulting in a 20% improvement in issue resolution efficiency.
- Resolved over 80% of customer complaints on the first call, exceeding departmental targets.
- Maintained detailed records of customer interactions and transactions, achieving 100% adherence to data protection and privacy standards.

Projects

Nessus Vulnerability Assessment

- Conducted comprehensive vulnerability assessments using Nessus across the network, identifying and mitigating critical security risks to enhance overall network security posture.

Lansweeper IT Asset Management

- Implemented an IT Asset Management System using Lansweeper, enabling real-time tracking of hardware and software configurations, reducing asset discrepancies by 30% and improving inventory accuracy and compliance.

SolarWinds SIEM Monitoring

- Deployed and utilized SolarWinds SIEM to monitor and analyze system logs in real-time, enhancing threat detection and response times and improving overall security event management by 25%.

SonicWall Firewall Configuration

- Configured firewall rules using SonicWall, including Access Control Lists (ACLs), disabled unused ports, and monitored inbound and outbound packets to strengthen network security.
- Implemented VPN solutions for end devices and storage, ensuring secure remote access and data protection.

ACTIVITIES & LEADERSHIP

Peter McVerry Trust

Volunteer

- Supported humanitarian initiatives addressing homelessness and substance use, contributing to community outreach and delivery of essential services.

CERTIFICATIONS

- CompTIA A+
- CompTIA Server+
- CompTIA Network+
- CompTIA CySA+ (Cybersecurity Analyst)
- CompTIA Security+
- Cisco Certified Network Associate (CCNA)

EDUCATION

Birmingham City University

BSc (Hons) - Computer Networks & Security. *01/2023*

Relevant Coursework: Network Fundamentals, Network Technologies, Enterprise Network Systems, Systems Security and Attacks, Applied Operating Systems, Server Systems, Computer Systems, Operating Systems, Programming for Network Engineers, Mathematics for Computing, Computer Programming, Enterprise Practical Project, Innovation Project

SKILLS

Networking & Security: SonicWall Firewalls, VPN (Site-to-Site, Client-to-Site), ACLs, VLANs, Routing Protocols, Ubiquiti UniFi, Network Monitoring, Intrusion Detection

Systems & Administration: Microsoft Intune, Microsoft 365, Active Directory, Microsoft Entra ID, Windows, macOS, Linux

Security Tools: SolarWinds SIEM, Nessus, Lansweeper

Skills: Scripting & Automation (Bash), Ticketing Systems, Documentation, Training & Mentoring, Troubleshooting & Technical Support

AI: Machine Learning, Python, RAG, Prompt Engineering, AI Model Trainer & Coding
